

At installation problems with CaiSet , VET, GPS or Yawstring Gauges please check the following (notice the different paths for FS9 and FSX !):

FS9:

The **FS9.cfg** must include the following lines :

```
[OLDMODULES]
SOARRec.dll = 1
FSSound.dll = 1
```

The **FS9/MODULES folder** must include the following files:

```
FSSound.dll and
SOARRec.dll and
FSUIPC.dll Version 3.75 (FS98 up to FS2004)
```

The **FS9 main folder** must include the following file:

```
GPS-NAV.dat
```

The **PANEL folder of the glider** or the **FS9/GAUGES folder** must include the gauges

```
mr-fs9-caiset.gau and mr-yawstring.gau
```

FSX:

The **FSX.cfg** must include the following lines :

```
[OLDMODULES]
SOARRec.dll = 1
FSSound.dll = 1
```

The **FSX main folder** must include the following files:

```
FSSound.dll and
SOARRec.dll and
GPS-NAV.dat
```

The **FSX/MODULES folder** must include the following file:

```
FSUIPC4.dll Version FSX
```

The **PANEL folder of the glider** or the **FSX/GAUGES folder** must include the gauges

```
mr-fs9-caiset.gau and mr-yawstring.gau
```
